Hi Ted – I believe this is what you were looking for when you called a few weeks ago, right?

Let us know if you have questions/input.

Cheers, Forrest

**Subject:** Merrymeeting R Model Report

Hi David,

Please find attached the model report and spreadsheets for the Merrymeeting River and Lake watershed. We have run the model for current (2018) conditions. Please pass along to others at

DES/EPA, as necessary. Once you and others have digested the attached report, we are happy to walk DES/EPA through it or clarify any questions.

Let us know if and when you'd like to schedule a conference call to review model results.

Sincerely,

Laura
